

Foundation Stone Laid For Super Speciality Hospital In TDI City, Kundali

- First Super Speciality Hospital in TDI City, Kundli
- First phase of the hospital will be operational by the end of 2012

New Delhi, 30th April 2012: TDI Infrastructure Ltd today conducted Foundation Stone Laying Ceremony for state of the art Nulife Super Speciality Hospital, a unit of NCR Healthways Pvt Ltd at its 1250 acres of integrated township, TDI City, Kundli, which is the largest township in North of Delhi.

Foundation Stone Laying Ceremony was performed by **Shri S. Gandhiselvan, Hon'ble Minister of State for Health & Family Welfare, Government of India** in the august presence of top management of TDI Infrastructure Ltd. Also present at the occasion were Board of Directors of NCR Healthways Pvt Ltd.

Shri S. Gandhiselvan, Hon'ble Minister of State for Health & Family Welfare, Government of India while laying the foundation stone said, *"We are gathered here to-day on the happy and auspicious occasion of laying the foundation-stone of a Super Speciality hospital that has been so kindly promised to the residents of TDI City, Kundli, which I understand is buzzing with habitation and social infrastructure. I congratulate Mr Kamal Taneja, the managing director of TDI for envisaging a super speciality hospital that will provide tertiary level healthcare in the states of Haryana, Punjab and Himachal Pradesh."*

TDI City, Kundli, which already houses over 400 families in its city, has every social infrastructure for its residents within and in the close vicinity of the City. In fact with over 1200 Kingsbury Apartments and My Floors handed over for possession, the TDI City is likely to see another 1000 families occupying ready to move in Kingsbury apartments and My Floors before the end of this year. And TDI remains committed to deliver two more projects, My Floor-II and Tuscan Floors soon, which will further boost the habitation in TDI City.

The TDI City has in-house facilities like Departmental Store, Daily-need Provisional Store, Doctor's Clinic, Helpline Centre, On Call Ambulance and Cab. Free Bus transportation from the TDI City to nearest Metro Station. Fully functional Gym to keep the residents fit. The exclusive TDI Club Tivoli will be functional in a week's time. The city has already has a Mandir and Gurudwara construction is about to start. There are reputed schools like G D Goenka with whom we have understanding to accommodate the children of TDI City. In addition there are many other schools like DPS, Gateway International, Swarnprastha, Delhi International Public School, Apollo International and Sunrise International within driving distance.

More importantly, TDI School within the TDI City will open for admissions from next academic year.

Mr. Kamal Taneja, Managing Director of TDI Infrastructure Ltd., said *"It always has been our endeavor to provide exclusive world class facilities for the residents of TDI City along with*

beautiful and modern homes. Today in collaboration with NCR Healthways Pvt Ltd we are very pleased to bring another world class facility of a Super Speciality Hospital to TDI City."

TDI City, Kundli is just 15 minutes drive from Rohini and Pitampura and is close to KMP & KGP Expressways and 5000 acres of Rajiv Gandhi Education City. The proposed Rapid Rail Transit System (RRTS) will connect Kundli and ISBT Delhi in 20 minutes, with an exclusive station at Kundli. Delhi Metro is also scheduled to reach within close distance of Kundli.

Dr. Harish Kumar, one of the Board Directors of NCR Healthways Pvt Ltd says, *"Nulife Super Speciality Hospital aspires to attain highest standards of healthcare delivery in northern India belt on NH-1 wherein best medical care is provided to people at most affordable cost. Offering not only the best technical facilities, rather Nulife will provide most easily accessible, affordable and trusted healthcare across all sections of the community. And I must add we are committed to ensure the operation of the first phase before the end of this year."*

Nulife Super Speciality Hospital shall be conglomeration of various specialties and managed by joint medical teams headed by the topmost, experienced and expert doctors who have excelled in their respective fields.

The building proposed will be the first platinum green building in India to obtain LEED certification using environment friendly techniques and self-sustaining energies to power various processes.
