

TDI launches Tuscan city

TDI Infrastructure Ltd. launches gated township — Tuscan City — designed around the theme of Italy, at a cost that is affordable and does not leave you cash-strapped. Located at AI block in TDI City, Kundli, the 'New' New Delhi, Tuscan City brings to India for the first time the look and feel of Italian lifestyle, known for its panache, design and architecture. The township has been designed by international architects around the beautiful region of Tuscany in Italy, which is the greatest repository of art in the world, from extraordinary paintings to sculpted architectural masterpieces.

In fact, a typical Tuscan village is synonymous with extraordinary countryside landscapes dotted with heritage architecture, pebbled pathways, ornamental street lamps and railings, fine cuisine and robust red wine. Add to it the fine sense of music and opera and the region is God's canvas of esoteric expression. You will soon see all this recreated before your eyes in Kundli.

Tuscan City is spread over 40 acres of land, ideally situated next to NH-1. The township will offer plots in sizes varying from 250 to 500 sq. yds., row houses, independent floors (2 and 3 BHK) and villas. 80 per cent of the area in Tuscan City would be dedicated to the greens. ■
