SONIPAT is future city of Haryana: Hooda

Author(s): [SK Vyas](#)

Haryana Chief Minister, Bhopinder Singh Hooda.

New Delhi, April 20, 2013: Haryana Chief Minister, Bhopinder Singh Hooda has said that Sonipat is the future city of Haryana. He said that Gurgaon, the millennium city is the face of the country and Haryana Government has a plan for developing many more cities like Gurgaon.

Hooda was speaking at a three-day exposition on "Investment Opportunities in Sonipat-Kundli" in New Delhi on Friday. He said that Haryana Government is according top priority to provide connectivity. Hooda said that Delhi Metro has been extended up to Gurgaon and it is being extended up to Ballabgarh and Bahadurgarh. He said that Delhi Metro will be extended up to Manesar in Gurgaon district. Delhi Metro will also be extended upto Kundli after reaching Narela. Haryana Government will be contributing its due share for this project.

Hooda said that a Rapid Rail Corridor has been planned for Delhi-Sonipat-Panipat and Delhi-Gurgaon-Rewari-Alwar, in which an amount of Rs 40,000 crore will be invested. A new railway line is under construction between Sonipat and Gohana, ultimately going up to Jind. He said that Sonipat-Kundli area, located on GT road is next door to Delhi, has great potential for development. It is connected with six-lane NH-1, KMP Expressway and major railway line.

He said that an international horticulture market is coming up a Gannaur, which will be a potential hub for export of fruits, flowers and vegetables. He said that industrial complex of Kundli-Rai is spread over an area of about 2,500 acres with Electronic Hardware Technology Park and a Food Park in Rai etc. A new IMT is planned near Kharkhauda and Industrial Township is proposed to be developed near Gohana, he added.

The CM said that there are four basic parameters to evaluate the growth story of any State. While referring these parameters, he said that today Haryana is number one State in per capita investment and is also number one in per capita income among bigger States. Per capita Plan Expenditure of Haryana is also the highest in the country and as per the Planning Commission report, the resource mobilisation in Haryana during eleventh five year plan had been 192 per cent of the projected mobilisation against the national average of 92.5 per cent, which substantiate the progress of Haryana. In a reply to a question, Mr Hooda said that I know only about Haryana model of development, which is very successful and can be verified on these parameters. Gujarat is not ahead of Haryana in any of these four parameters of per capita income, per capita investment, per capita planned expenditure and resource mobilisation.

Hooda said that on assuming power in 2005, the first challenge faced by his Government was that of acute power shortage. His Government decided to set up four thermal power plants in the State. Today, the power availability in the State has gone up from 1587 MW to over 6500 MW and there is no shortage of power in the State. Another challenge was of creating employment opportunities for the youth and making them employable. Increase in the power generation capacity and availability of excellent infrastructure helped in increasing the pace of industrialization, leading to more employment opportunities in Haryana.

Hooda said that Rajiv Gandhi Education City is being developed in this area and eleven reputed educational institutions including National Law University and the extension campus of IIT Delhi have been allotted land. With Deenbandhu Chhotu Ram University of Science and Technology at Murthal, An All Women University at Khanpur along with a Women Medical College, O.P. Jindal Global University, The National Institute of Food Technology, Entrepreneurship and Management (NIFTEM) and a number of other institutions, Sonipat-Kundli area is all set to emerge as a major education hub of International Standard.

A number of Industrialists, Developers and Investors are participating in the three day conclave. The Principal Secretary to Haryana Chief Minister Chhatar Singh, Principal Secretary, Town and Country Planning Haryana S.S. Dhillon, Principal Secretary Agriculture Roshan Lal, Principal Resident Commissioner P.K. Mahapatra, Managing Director of HSIIDC, Tarun Bajaj, Director General of Information and Public Relations Haryana, Sudhir Rajpal, Media Advisor to Haryana C M Shiv Bhattia, Additional Media Advisor Sunil Parti and others senior officers of the State Government were also present on the occasion.
